Love / Hate activity

Let’s vote for your favorite and worst!
1. **Think of a task** you would like to develop a lesson plan for. The task should have a non-linguistic outcome. It can be an activation task (not similar to real world) or a pedagogical task (similar to real world). Think about the language needed to complete the task. Be ready to discuss the task design (materials, steps, outcome).

Frameworks for lesson planning

A framework for creating a lesson is similar to the framework of a building. It can organize and contain many different things.
There isn’t a right or a wrong framework for lesson planning. It depends on your teaching style, your students’ age and goals, and the content of the lesson.
E-I-F Framework for speaking lessons

E = Encounter
Students ‘encounter’ the target language through an activity focused on meaning.

I = Internalize
Students ‘internalize’ (memorize) the target language with scaffolded practice activities (controlled —> free).

F = Fluency
Students ‘USE’ the target language on their own in a speaking task. They become ‘fluent’ in the TL.
The steps for learning how to speak a new language:

1. Generate interest.
2. Assess prior knowledge.
3. Hear the target language in context.
4. Controlled practice.
5. Less controlled practice.
6. No support.
7. Model the task.
8. Give a task to assess success.
Let’s look at a sample lesson that follows E-I-F.

**Age:** Elementary school  
**Level:** High Beginner
